

Please note you MUST PRINT this chart (it will not work if you try to measure directly on screen). Prior to printing, please ensure the page size is set to 'Actual size' or '100%' in your print dialog box. Use a ruler to check that the ring sizer is exactly 10cm long on your printed page. This chart represents ring sizes for Australia. Sizings are approximations only and actual rings produced using these sizing methods may require adjustment at Metal Urges.

Method one **Wrap around ring sizer**

INSTRUCTIONS

- 1 Cut around ring sizer outline.
- 2 Use a utility knife to cut a slit in the ring sizer where shown.
- 3 Wrap the ring sizer around the appropriate finger with the letters on the outside.
- 4 Poke the pointed end of the sizer through the slit and pull so it fits snugly around the widest part of your finger (normally at the largest knuckle).
- 5 Read the letter size (E-Z) at the slit. If the size falls between two letters, use the larger size.

Method two **Current ring sizer**

Printable ring sizer

INSTRUCTIONS

- 1 Choose one of your current rings that comfortably fits the correct finger.
- 2 Place your ring over the circles below until you find the best match. The circle should match the **INSIDE** of your ring.
- 3 Use the letter inside the circle that matches.
